SUMMARY

UX/UI design professional with 5+ years of experience delivering end-to-end product design in Enterprise Technology / SaaS, Education, HealthTech, and Non-profit industries. A user-centric practitioner skilled at turning research insights into scalable design solutions that improve usability and drive measurable business outcomes. Experienced in collaborating cross-functionally with product managers, researchers, engineers, and business stakeholders to align user needs with strategic goals.

- User Research & Usability Testing
- Interaction Design & Micro-Interactions
- Wireframing, Prototyping & AI Ideation
- Storytelling & UX Writing
- Information Architecture
- Data Analysis & Metrics
- Visual Design & Style Guide Development
- Strategic Design Thinking & Business Alignment

EXPERIENCE

MELTWATER, San Francisco, CA

05/2022 – 07/2025

Global SaaS leader in media monitoring, analytics, and intelligence

UX Designer L3/Product Designer

Led UX strategy and design for Smart Alerts and Universal Dashboard System enterprise products:

- Partnered with PM on roadmap planning including UX enhancements on forecasting, sensitivity scales, and sentiment shift visualizations, influencing the evolution of AI-driven insights.
- Prototyped a UX Writing Agent in ChatGPT to support designers, generating microcopy variations aligned with Meltwater's tone of voice and writing guidelines reducing copywriting time by 40%.
- Designed and defined permissions and workflows for Universal Dashboards, collaborating with PMs and engineers to establish ownership rules, role-based access, and notification patterns reducing errors by 30% and clarifying system behavior across admins, viewers, and restricted users.
- Led design and validation of product features and enhancement to reduce friction and improve usability: user workflow simplification, spike detection forecasting, alert visualization, AI summary.
- Created and coded UX prototypes for Slack and Microsoft Teams integrations using Insomnia, ensuring clarity, consistency, and adherence to product guidelines across external channels.
- Collaborated with researchers and PMs on usability testing in Lyssna and customer call interviews, synthesizing insights into prioritized design improvements.
- Facilitated peer reviews and cross-functional workshops with researchers and PMs to co-create improvements in workflows and product features.

GREENBANC, Berkley, CA

04/2020 – 05/2022

Leading provider of home energy analysis technology

UX/UI Designer

Led end-to-end design process of Electricasa desktop and web apps and administration dashboard that can help reduce carbon emission for 70M fossil-fuel dependent households in the US:

- Leveraged user research techniques and data to design user flow charts.
- Designed 100+ pages in Figma for web and desktop applications by turning conceptual ideas into hi-fidelity mockups and prototype.
- Developed and led usability testing of the application prototype, iterating on the design.
- Developed a comprehensive style guide that included on icons, colors, and typography.
- Worked with the CEO and SDEs to develop, refine and communicate UX requirements.

PRIVATE CONSULTING PRACTICE, San Mateo, CA

03/2019 – 04/2022

Delivered UX/UI Design projects to clients in Education, HealthTech, Non-profit, and Technology sectors:

- Designed UI for uWork mobile application and CMS desktop platform for construction industry.
- Led end-to-end UX/UI design process for a wildfire survivor grant application review platform.
- Developed a design for a tech collaboration platform for Silverberry.AI extension app development.
- Co-designed an improved STEM curriculum and teachers' experience with a group of UX designers.
